SUMMARY

SGV Construction is an 8(a) certified general contractor based in Arcadia, California offering start-to-finish, turnkey solutions for federal construction projects. SGV is proud to specialize in civil infrastructure such as roadways, bridges, land development and water drainage; and in structural works such as foundations and walls. Our additional services also emphasize our skills in framing, carpentry, drywall, paint and trades management, as well as project administration with design-build capacity.

For over a decade, SGV has maintained an excellent reputation at all levels of service. Through communication, innovative technology, and dedicated hard work, SGV is proud to continue their professional growth, with a focus on completing all projects at the highest standard of customer satisfaction.
